

To whomsoever it may concern

It gives me great pleasure to recommend Purva Aggarwal as she has worked with BDO India LLP since December 2015 in various projects as a Trainee (On contract) in Risk Advisory Services. I have known Purva Aggarwal through her work experience with our firm as she was engaged in various risk advisory engagements.

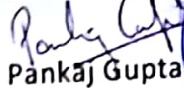

She is a dynamic professional and has shown a great learning curve. As the vertical of Risk Advisory Services was building up in 2016, Purva immediately got involved in designing proposals with her seniors for business development in industries such as Telecom and Automotive. She engaged in risk based internal audits, business process reviews; drafting Standard Operating Procedures; Internal Financial Control Development, Review and Testing; IT General Controls Testing (ITGC). She is acquainted with ERP softwares like SAP, IDEA, Oracle etc. She handled various clients spread across sectors such as Telecom, Logistics, Manufacturing, FMCG, Insurance etc.

Amongst various clients, Purva proved her mettle with a project with Cheil India and Samsung Group as she was the Team Lead in redesigning the Accounts Payable process outsourced to BDO India LLP. An assignment that started with 5 staff members including Purva, grew to 50+ during her tenure in the project. Purva had contributed immensely in designing the Management Information System in the project and her client servicing skills were not only noted in this engagement but have been appreciated always. Other key clients handled by Purva include Reckitt Benckiser, Sun life Financial, Keysight Technologies, Gojivas and Machino Polymers Limited.

Overall, Purva Aggarwal is a smart and meticulous professional and was an asset to the company and department. She has good working relationships with both the management and colleagues due to her strong communication and interpersonal skills.

I happily recommend her for her future endeavors and wish her absolute success!

Thanks and regards,

Pankaj Gupta
